

"sp80-2" alüminyum süpürgelik özellikle hastane, okul, huzurevi, otel, iş merkezi, sosyal tesis, ofis ve benzeri alanlarda zemin ile duvarın birleştiği noktaları kapatır ve mekana estetik bir bütünlük katar. Duvarları süpürge darbeleri ve ayak çarpmalarına karşı korur. Ayrıca parke genişleme boşluklarını gizler ve kablo geçişlerini düzenleyerek ortamı daha temiz gösterir.

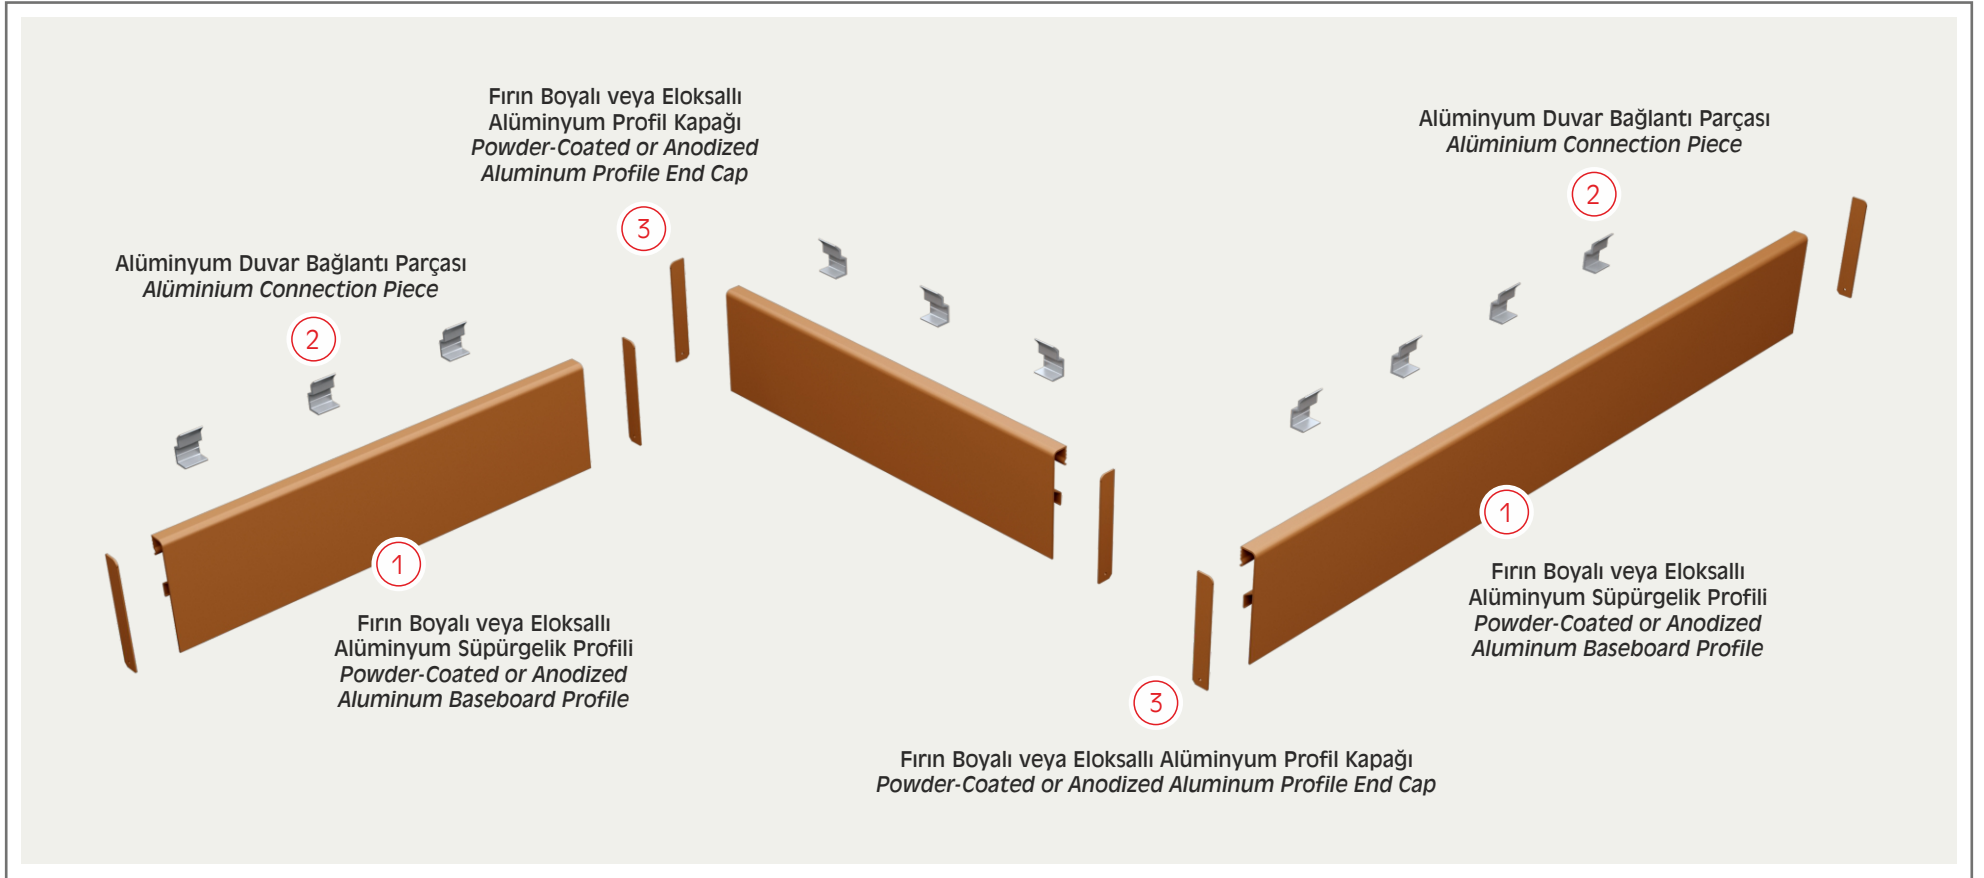

"sp80-2" aluminium baseboard is specifically designed for use in hospitals, schools, hotels, business centers, social facilities, offices, and similar environments. It conceals the junction between the floor and wall, providing a clean and aesthetically integrated finish. It protects walls from damage caused by vacuum cleaners, cleaning equipment and foot traffic. Additionally, it conceals expansion gaps in flooring and organizes cable routing, contributing to a cleaner and more orderly appearance.

TEKNİK ÖZELLİKLER

- Yükseklik: 80 mm (sp80-2)
- Derinlik: 12 mm
- Profil boyları: 3 m
- İç konstrüksiyon: Eleksollü alüminyum profil
- Ön kapak: Fırın boyalı veya eleksollü alüminyum profil
- Duvar bağlantısı: 50-75 cm aralıklarla atılan duvar yapısına uygun vida ve dubeller

TECHNICAL PROPERTIES

- Height: 80 mm (sp80-2)
- Depth: 12 mm
- Profile lengths: 3 m
- Inner construction: Anodized Aluminium Profile
- Front cover: Powder-Coated or Anodized Aluminium Profile
- Wall connection: Screw and pegs suitable for wall structure placed at intervals of 50-75 cm
